TABLE OF CONTENTS

IP Rulers resolve to be just that – to be crowned as the Rulers in the field of Network and Security. IP Rulers is one of the large IT infrastructure education providers in the region of leading provider of multi-vendor training programs. The first of its kind in the international educational hub of Dubai, UAE, IP Rulers are devoted to bringing quite the coup to the table – intensive, comprehensive and cost-effective coaching in all demanding technologies in the fields of networking, network security, cloud services and cyber security, so that by the time all our students earn their certificates, they become experts in their career path.

The specialty for IP Rulers is the different modes of training provided: one-on-one, online, classroom-based, private groups, corporate training etc. – there is a list a student can choose from. Coaching can be either Certificate Oriented, where you can learn the complete end-to-end course, or Modular, where any single module can be worked upon, or Vendor-Specific, where you can follow the course provided by distinguished vendors. Whichever mode you choose, our tutors are staunch and dedicated to seeing you through it.

All our instructors are profoundly competent in training as well as implementation, with more than ten years' experience and multiple CCIEs in their fields. They have trained more than five thousand students during their career-time and have produced 300+ successful CCIEs worldwide. The institute has hundreds of success stories and the highest pass-rate in the region. It also has the facilities and infrastructure that include well-equipped racks and labs, and regularly updated technologies, that are vital in providing hands-on experience for the students.

A Comprehensive Portfolio of Education Service

"Our Training is focused on
Networking, Cloud, Virtualization, Security, Automation etc.
Our core training is focused on cisco and followed with other venders like
Microsoft, Amazon, CompTIA, Palo Alto, Checkpoint, F5, Juniper etc."

Networking Infrastructure

- Routing & Switching
- Wireless
- Service Provider
- Collaboration (Voice & video)
- Data Center

Security

- Network Security
- Cyber Security
- Cloud Security
- IT Security
- Load balancing

Cloud

- Microsoft Azure Cloud
- Amazon Cloud
- Office 365

Virtualization

- Vmware
- HyperV

Automation

- Python
- Ansible
- Chef
- Puppet
- Docker
- DevOps

The market of technology is dynamic and ever-evolving. As an IT firm, striving to keep up with this is our number one priority. Our strengths in the Training Services are our field-based, professionally Certified Trainers, fully equipped labs, service commitments and passion towards acquiring new knowledge, and these factors set us apart in this field.
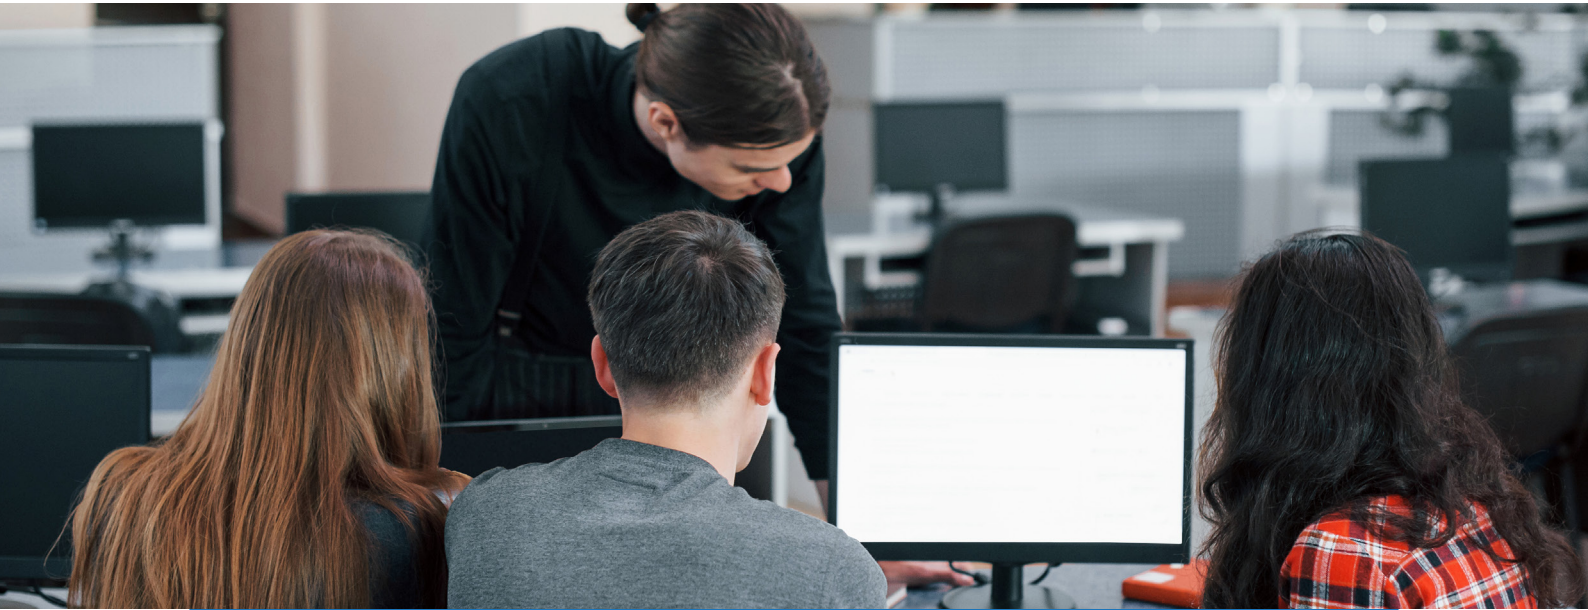

Cisco Training & Certification

Today's dynamic IT technologies are driving Cisco's redesign of our training and certification programs to prepare students, engineers, and software developers for success in the industry's most critical jobs.

- CCIE EI
- CCIE Security
- CCIE Collaboration
- CCIE Datacenter
- CCIE Wireless
- CCIE SP
- CCNA
- CISCO DEVNET Associate
- CCNP Enterprise
- CCNP Security
- CCNP Collaboration
- CCNP Datacenter
- CCNP SP

Microsoft Training & Certification

Microsoft has certification paths for many technical job roles. Each of these certifications consists of passing a series of exams to earn certification.

- AZURE Fundamentals
- AZURE Administrator
- AZURE Architect
- OFFICE 365
- MCSA
- MCSE
- Azure Security Technologies (AZ 500)
- Designing And Implementing Microsoft Azure Networking Solutions (AZ 700)

CompTIA Training & certification

Microsoft has certification paths for many technical job roles. Each of these certifications consists of passing a series of exams to earn certification.

- CompTIA A+
- CompTIA N+
- CompTIA LINUX+
- CompTIA CySA+
- CompTIA SECURITY+
- CompTIA Cloud+

Amazon Training & certification

AWS Training and Certification builds your competence, confidence, and credibility through practical cloud skills that help you innovate and build your future.

- AWS Certified Cloud Practitioner
- AWS Certified Solutions Architect-Associate
- AWS Certified Solutions Architect-Professional
- AWS Certified Advanced Networking Speciality

Python Institute Training & certification

The Python Institute is committed to the development of an independent global standard in Python programming certification, which will allow programming specialists, software developers, and IT professionals from all over the world to assess and document their programming skills objectively, and to gain recognition for their expertise.

- PCEP Certification (Entry-level)
- PCAP Certification (Associate)
- PCPP Certification (Professional)

Palo Alto Training & certification

Palo Alto Networks Education Services develops world-class cybersecurity training and curriculum.

- PCNSA – Palo Alto Networks Certified Network Security Administrator
- PCNSE- Palo Alto Networks Certified Network Security Engineer

Checkpoint Training & certification

Check Point certifications are structured around comprehensive job models for administration, engineering (Expert), and advanced systems (Security Master). Check Point certifications are designed to build upon the knowledge and skills of the previous courses, reinforcing lessons learned and extending your competencies with ever more complex and valuable skills.

▸ CCSA - Check Point Certified Security Administrator
▸ CCSE - Check Point Certified Security Expert

F5 Training & certification

F5 Certified exams are developed to deliver consistently reproducible results that guarantee excellence in those who achieve certification. F5 Certification is a differentiator for you in your career and it's a competitive advantage for your employer.

▸ F5-CA F5 certified BIG-IP Administrator
▸ F5 Certified Technology Specialist (F5-CTS)

⏵ F5-CTS BIG-IP Local Traffic Manager (LTM)
⏵ F5-CTS BIG-IP Domain Name System (DNS)
⏵ F5-CTS BIG-IP Application Security Manager (ASM)
⏵ F5-CTS BIG-IP Access Policy Manager (APM)

Juniper Training & certification

Juniper Education Services offers you a wealth of complimentary learning options to help you get started on Juniper Network solutions. Juniper courses on product installation to Junos OS courses designed to help you transition from other platforms.

▸ JNCIA-Junos
▸ JNCIS-ENT
▸ JNCIP-ENT

▸ JNCIA-SEC
▸ JNCIS-SEC
▸ JNCIP-SEC

REDHAT Training & certification

Maximize your skills and impact on your organization with Red Hat® Training and Certification. Learn about the different ways Red Hat certifications let you prove your skills and prepare for a global marketplace.

- ▶ RHCSA –Redhat Certified System Administrator
- ▶ RHCE-Redhat Certified System Engineer

VMWare Training & certification

We validate the critical skills required to integrate and manage the technology that drives desired business outcomes. Covering multiple technology areas with levels for those new to the industry as well as experts in the field, VMware Certification Tracks give you the flexibility to find the path that suits your needs.

- ▶ VCP-DCV (Datacenter Virtualization)
- ▶ VCP-NV (Network Virtualization)

(ISC)² Training & certification

The Certified Information Systems Security Professional (CISSP) is a globally recognized certification for information technology security professionals.

- ▶ CISSP- Certified Information Systems Security Professional

Modular Training Programs

Modular Training Program is designed to help professionals to enhance their skills by attending flexible short modular course program that provides the theoretical knowledge and firsthand experience to excel in their specialized IT roadmaps. The fundamentals the training, guidance, and support to excel in their specialized technology, and to intensify day today operation in specialized technology portfolios achieve focused skills and team peak performance.

- ▶ Python for Network Engineer,
- ▶ Cisco Viptula SD WAN
- ▶ Administering Avaya IP office.
- ▶ Aruba ClearPass Aruba Wireless.

EC-Council

International Council of E-Commerce Consultants, also known as EC-Council, is the world's largest cyber security technical certification body. We operate in 145 countries globally and we are the owner and developer of the world-famous Certified Ethical Hacker (CEH), Computer Hacking Forensics Investigator (C|HFI), Certified Security Analyst (ECSA), License Penetration Testing (Practical) programs, among others.

The International Council of E-Commerce Consultants (EC-Council) is a member-based organization that certifies individuals in various e-business and information security skills. It is the owner and creator of the world famous Certified Ethical Hacker (CEH), Computer Hacking Forensics Investigator (CHFI) and EC-Council Certified Security Analyst (ECSA)/License Penetration Tester (LPT) certifications and as well as many others certifications that are offered in over 87 countries globally.

Classroom-based Training

Go old-school. Make friends and have fun, just like elementary grades. Follow lectures, turn in assignments and appear for exams in campus-style!

Online Training

Sit in the comfort of your home as you move through the course. Instructors will guide you in predetermined sessions. Hundreds of supporting videos available, in case you want to outshine yourself.

Corporate Training

Lectures and hands-on training for office employees, in the comfort of their own office. Sponsored by employers to push up their employees above the market competence.

One-on-One Training

An instructor will train you in private – without any external intrusion. Ideal if you want to progress on your own. Schedule your classes according to your own timeline as you advance, without disruption to your daily routine.

Fast Track Training

No time to follow regular class timeline? Go fast track – speed through the course, whether it be alone, or online, in groups, on an accelerated timescale, to give the icing on the cake.

Private Group Training

You and your friends like to be together in a class, but without any outsiders? You've got it! Feel as if you have hired your own instructor. A way to combat shyness, with the comfort your friend-circle.

Job Oriented Training

Lectures for groups of classes or office-employees, on predefined subjects. Hone your specific skills to razor sharpness, which were inadequate to make your next career move.

School Training

Fun-oriented training for students interested in the technology field, through sessions conducted at their schools. Provides a basic knowledge, enough to agitate their hidden potential and talents within them. Churn out future CCIEs!

Project Handover

Tailored training for the IT department of the clients, provided at the time of receiving completed IT projects from their solution providers. Helps ease the day-to-day activities and maintenance of the received products and avoid frequent queries back to the provider.

- IP Rulers is managed by an expert team of trainers with over 12 years' experience in the industry and in hands-on training.
- All the trainers have multiple certifications in their respective areas of interest.
- Individual trainers' profiles can be provided upon request by email, along with demos and LinkedIn profiles.
- Online and classroom demos are also available upon request.

Here are few certifications our instructors hold

- CCIE EI/R&S | Cisco Certified Internetwork Expert -Enterprise Infrastructure
- CCIE Security | Cisco Certified Internetwork Expert - Security
- CCIE Collaboration | Cisco Certified Internetwork Expert -Collaboration
- CCIE SP | Cisco Certified Internetwork Expert -Service provider
- CCIE DC | Cisco Certified Internetwork Expert -Datacenter
- PCNSE | Palo Alto Networks Certified Network Security Engineer
- CCSE | Check Point Certified Security Expert
- F5-CTS | F5 Certified Technology Specialist
- CEH | Certified Ethical hacker
- RHCSE | Red Hat Certified System Engineer
- MCSE | Microsoft Certified System Engineer
- VCP | VMware Certified Professional (DCV/NS)
- CISSP | Certified Information Systems Security Professional
- PCAP | Certified Associate in Python Programming certification
- Microsoft Azure Architect
- AWS Cloud Architect

Mission

To create an institution of academic excellence, whose gates are pathways for proficient and successful candidates who are competitive for the ever-evolving, dynamic IT field.

Vision

To become the leading institution in coaching Networking, Security, Cloud, Cyber Security and eventually in Artificial Intelligence and SDN.

Goal

Provide quality, cost-effective training designed to increase individual and organizational productivity and enrichment.

Values

Efficient, Reliable, and Best-in-Class Tutelage to haul you up.

WHY IP RULERS?

300+ successful CCIEs around the world.

Over 12+ years' experience in efficient training.

Multiple CCIEs and industry experts for each tutor.

Huge pool of well experienced instructors.

IPRULERS

Latest lab and equipment updated regularly.

Virtual and real smart classes and classrooms.

Choice of class according to students' preferences
